Subject: RE: Emergency--Covenant to Care needs our assistance

Meral has been a great support whenever I've reached out to her. I don't have an assigned church but she is my link whenever I have exhausted all other resources. She immediately connects me to a resource without hesitation. For example, Relative Foster Mom, E. Cooper could not believe how quickly they responded with a crib that converts to a toddler bed for her nephew. As well they personally delivered the crib and additional baby items to Ms. Cooper's home the same day.

Not only has Meral always helped in a minute's notice, she continues to follow up to ensure that our families are taken care of. Meral's resource connections go far beyond what's asked of them.

It would be impossible to do serve our families in a timely manner without this available resource. Therefore, please continue to support this funding. The Department remains appreciative of the efforts made to help the agency in meeting the needs of children and families.
