

MEMORANDUM

To: Ms. Caryl Hallberg, Executive Director
Covenant to Care for Children

From: Christina Ramos

Subject: Adopt a Social Worker Program

Date: November 16, 2007

Dear Ms. Hallberg,

I am writing to express my gratitude for the Adopt a Social Worker Program through Covenant to Care for Children. As a treatment social worker, it is a great feeling to be able to call the church you are adopted by and ask for items the families we are working are in need of. Words can not describe the smiles on some of the children's faces when you walk in with a toy, clothes or even a book that their parents have not been able to provide them with. I have been adopted for less than a year now, but I enjoy working with my liaison and the church. They put together an Easter drive with wonderful items for the children for their Easter baskets, and now we are picking up Thanksgiving baskets for our families. The families are as grateful as I am when they receive the donations. My church has as well tried to get emergency donations as families are in need. The church is also new to the program and has been as eager to help and assist the families as best as they can. I know that if my church is not able to assist me in obtaining the items necessary for my family, I can reach the program and they will assist me in contacting other churches. I would have to say on a weekly basis I get an e-mail with donation items available for families. The program really goes above and beyond to assist the workers and the families we service and I am truly appreciative of it.

Sincerely,

Christina Ramos
